

E3
Replace the paragraph beginning at page 6, line 23,
with the following rewritten paragraph:

--Thus background circumstances, in particular a natural alertness 'low point' - and attendant sleepiness or susceptibility to (unprompted) sleep - in the natural physiological biorhythmic or circadian cycle may pre-dispose a driver to sleepiness, exacerbated by sleep deprivation in a recent normal sleep period.--

E4
Replace the paragraph beginning at page 23, line 10,
with the following rewritten paragraph:

--Angular sensing could be, say, through a variable magnetic flux coupling between magnets set on the steering wheel or column and on adjacent static mounts.--

E5
Replace the paragraph beginning at page 25, line 25,
with the following rewritten paragraph:

--Hardware considerations aside, an operation software protocol would involve a schema of factors, such as is represented in the Tables below which are generally self-explanatory and will not otherwise be discussed.--

R E M A R K S

This application has been amended so as to place it in condition for allowance at the time of the next Official Action.

The Official Action states that objections to the drawing are maintained due to a number of remaining informalities. The first of these is the lack of identification of the
